---

## PROFILE

---

I am seeking a role as a Full Stack Developer in a competitive and fast-paced environment that offers challenging responsibilities and the opportunity to contribute to impactful projects. I specialize in building efficient and scalable web applications using Python, Django, React, and MySQL. I value a workspace that recognizes individual performance and provides the platform to apply my technical skills effectively. I am committed to delivering high-quality solutions, working collaboratively with teams, and achieving both professional excellence and organizational goals.
